

OUR STORY

GOLF HAS A DRESS CODE. OURS IS GOLD

Big-name performance and honest prices, in clubs nobody mistakes for anyone else's.

WHY WE EXIST

GREAT CLUBS GOT TOO EXPENSIVE. WE TOOK IT PERSONALLY

We started Lucky for two reasons: good golf gear cost way too much, and golf itself forgot it was supposed to be fun.

The industry's playbook is simple: sponsor a tour pro and add it to the price. The steel didn't change. The price did. We're not playing that game. Same materials as the big names, same engineering, none of the markup. Sold direct, so the saving lands in your pocket instead of a sponsorship deal.

And we made them gold, because standing out is the whole point. Or black, if you'd rather they notice up close.

WHAT WE DO

SAME STEEL AS THE BIG NAMES. DIFFERENT MATH

Our stuff is built from the same high-end materials the big names use, engineered for real performance, and finished in gold or black so it doesn't look like anyone else's bag.

We cut out the middlemen, the retail markup and the hype. No buzzword launches, no four-figure price tags. Every club gets sixty days to make up your mind. If it doesn't earn its spot in the bag, send it back.

START WITH THE WEDGE →

THE GOLD QUESTION

IS GOLD SUBTLE? NOT EVEN A LITTLE

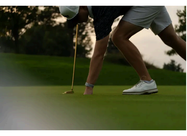

That's the point. You only get so many Saturdays, and none of them should be spent blending in.

2018 TO NOW

HOW A GOLD WEDGE TURNED INTO ALL THIS

We loved golf. We didn't love the bill, and we really didn't love how seriously golf was taking itself. So we made our own.

2018	**THE GOLD WEDGE**	One wedge, in gold. Same steel as the big names, none of the markup. Lucky starts here.
2019	**THE BLADE PUTTER**	CNC-milled from solid stainless, quiet off the face. Turns out people wanted more than a wedge.
2020	**WEDGES, VERSION TWO**	The original, refined and re-released. The gold wedge wasn't a fluke.
2023	**THE MALLET PUTTER**	More forgiveness on the putts you don't hit perfectly.
2024	**THE HYBRID**	Titanium with a flex-channel face, for the gap your long irons never covered.
JULY 2025	**SOMEBODY HIT THE GAS**	Lucky changed hands. Nothing happened to the clubs or the prices. Everything happened to the calendar.
MAY 2026	**THE POLOS DROP**	The clubs got a wardrobe. Same rule: look good, priced fair.
JULY 2026	**HATS LAND**	Ten of them, one price, and a sweatband that earns its keep in July.
JULY 2026	**THE PATRIOT PUTTER**	A limited run for America's 250th. Gone when it's gone.
2026	**NINE OF US NOW**	Nine people where there used to be a lot fewer. That's what shipping this much at once actually takes.
SEPT 2026	**FIRST ACCESSORIES DROP** COMING	Towels, divot tools, new headcovers. The little stuff, done right.
LATE 2026	**KBS SHAFTS** COMING	A name shaft across the line, for everyone who has opinions about shafts.
LATE 2026	**IRONS AND DRIVERS** COMING	The big sticks arrive. Years of asking, answered.
2027	**JUST GETTING STARTED** COMING	Partnerships, and a few drops we're not allowed to describe yet.
