$199

Set it down behind the ball and it just looks right. It's fully milled from 431 stainless, so the strike feels solid and muted, with no ring and no buzz, and you'll know exactly where you caught it. It stays planted all the way through the stroke, and it's gold from heel to toe.

What it's made of —

Fully CNC-milled 431 stainless steel, 3.5° of loft at 35 inches, finished in gold.

What's in the box —

One putter on our stock shaft and stock grip. No headcover, so the Blade Cover is the one to grab.

Shipping and returns —

Orders leave Long Beach, California in 1 to 2 business days, and the tracking number shows up as soon as the carrier scans it. Every club gets sixty days from delivery. Talk to us before anything ships back, because club returns need our OK and a few photos first. Return shipping's on you.

ON THE GREEN

THE PUTTER THAT TELLS YOU THE TRUTH

Fully milled with no insert, so what you feel at impact is the metal itself. Middle one and it's soft and solid. Miss the middle and you'll feel exactly where, which is how a stroke gets better.

WHO IT'S FOR

Golfers who want to feel every putt, with a stroke that has some arc in it.

FILM NEEDED · 16:9 · 40 TO 60 S

16:9, 40 to 60 seconds. The head milled, then three putts rolled: a short one, a breaker, a long lag. Sound on for the strike.
