CARVER 02

★★★★★ "So nice, I bought it twice." JD M. · read them all

$99

Fair warning: this thing spins, so your first few chips might stop shorter than you're used to. It's forged, so it feels buttery off the face, and it's forgiving enough that the mishits still behave. The micro-grooves and sandblasted face are doing the work. And yes, it's gold. People will ask.

What it's made of

A forged 1020 carbon steel head with CNC-milled grooves on a micro-grooved, sandblasted face. The K grind comes in all six lofts and the S in the 52, 56 and 60.

What's in the box

One wedge in the loft and grind you picked, on our stock steel shaft and stock grip. No headcover, so it goes straight from the box to the bag.

Shipping and returns

Orders leave Long Beach, California in 1 to 2 business days, and the tracking number shows up as soon as the carrier scans it. Every club gets sixty days from delivery. Talk to us before anything ships back, because club returns need our OK and a few photos first. Return shipping's on you.

ON THE COURSE

SOFT OFF THE FACE, NASTY ON THE SPIN. GO STICK ONE CLOSE.

From 100 yards in, this is the club you want. The forged 1020 head feels soft and solid, and the micro-grooved, sandblasted face grabs the ball and keeps it checking, even when the grass is wet. Six lofts, so there's one for every shot you actually hit.

FILM NEEDED · 16:9 · 40 TO 60 S

The club in hand, face detail, then three shots played: full swing from 100, a greenside check-up, a bunker out. Sound on.

TWO GRINDS

PICK YOUR GRIND.

The K is the one you set up square and trust from anywhere, in every loft. The S has a narrower sole, so it opens up without a fight when you want to get fancy around the green.

K GRIND

THE ONE YOU TRUST

Wide, flat sole and a standard leading edge. Set up square, take your divot, and it does the same thing from the fairway or out of the rough.

6 LOFTS **50 TO 60°** RANGE **8 TO 12°** BOUNCE

S GRIND

OPEN IT UP AND GET FANCY

Narrower, relieved sole and a reshaped leading edge, so the face opens as far as you like for tight lies and bunkers.

3 LOFTS **52 · 56 · 60°** RANGE **10 TO 12°** BOUNCE

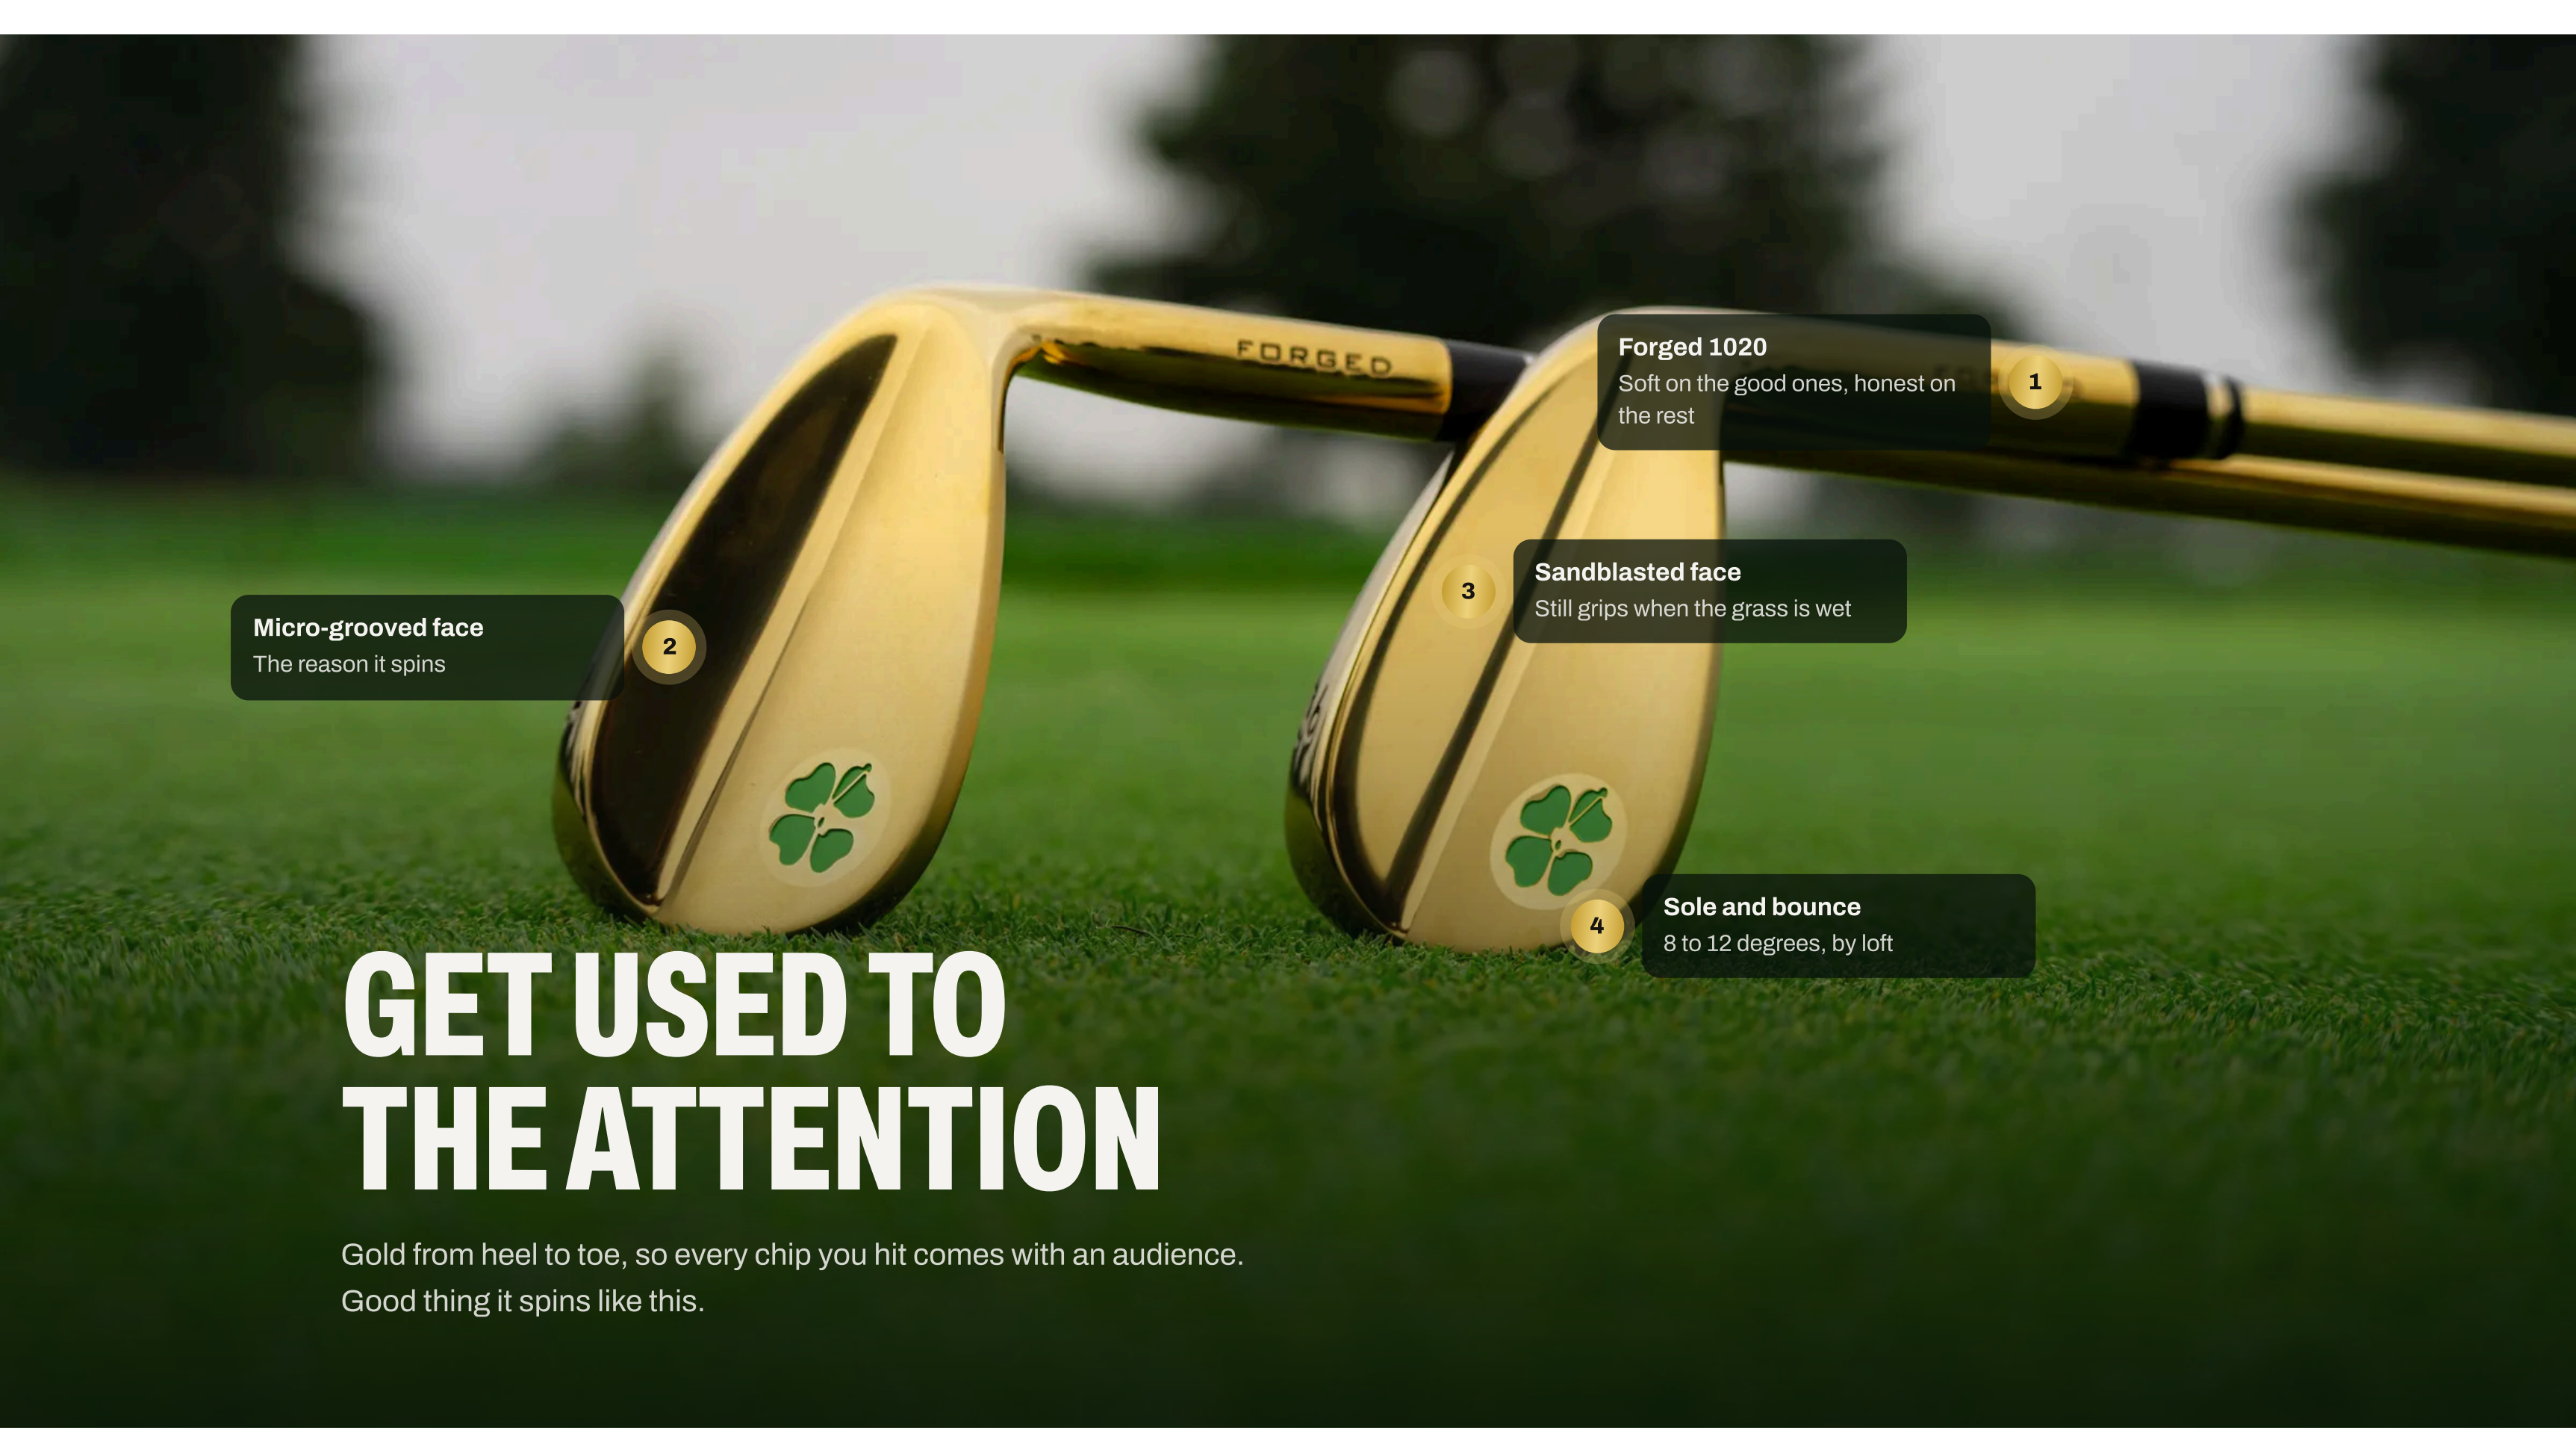
GOLD OR BLACK. SAME WEDGE.

GOLD BLACK



GET USED TO THE ATTENTION

Gold from heel to toe, so every chip you hit comes with an audience. Good thing it spins like this.

The S reads more bounce on paper than the K and plays with less, because the narrower sole puts less of itself on the turf.

So nice, I bought it twice!
