$229

Line it up and let it go. It's fully milled from 304 stainless, and the mallet head spreads its weight out, so a putt you don't middle still holds its line. Soft and muted at impact, gold all over, and easy to look down at when the putt actually matters.

What it's made of

Fully CNC-milled 304 stainless steel, 3.5° of loft at 35 inches, finished in gold.

What's in the box

One putter on our stock shaft and stock grip. No headcover, so the Mallet Cover is the one to grab.

Shipping and returns

Orders leave Long Beach, California in 1 to 2 business days, and the tracking number shows up as soon as the carrier scans it. Every club gets sixty days from delivery. Talk to us before anything ships back, because club returns need our OK and a few photos first. Return shipping's on you.

ON THE GREEN

MISS THE MIDDLE. MAKE IT ANYWAY.

The mallet shape pushes weight out toward the edges of the head, so a strike off the toe or heel stays on line instead of leaking away. Same fully milled build as the Blade, with more head behind the ball.

FILM NEEDED · 16:9 · 40 TO 60 S

16:9, 40 to 60 seconds. Head from above, alignment at address, then three putts: centre, toe, heel, all holding the line.
